

Vitis species

	5. Pharmacological properties	19
1. Plant description	1	
1.1. Morphological characters	1	
1.2. Histological characters	5	
1.3. Cultivation	11	
2. Phytochemistry	12	
2.1. Characterization of compounds isolated from the rhizome of <i>V. repens</i>	12	
3. Quality control	16	
3.1. Physicochemical test	16	
3.2. Safety test	17	
3.3. Microbiological test	17	
3.4. Thin layer chromatography (TLC)	17	
3.5. UV-Vis spectral data	18	
4. Toxicity study	18	
4.1. Toxicological study of <i>Vitis</i> species	18	
4.2. Acute and Subacute toxicity experiment	19	
	5.1. The test of the anti-tumoral effectiveness of the preparation <i>Biocrush</i> [®] <i>in vitro</i> in Germany	19
	5.2. Procedure	21
	5.3. Results	22
	6. Case control clinical study of <i>Biocrush</i> [®]	26
	7. Discussion	31
	8. Conclusion	34
	9. References	35

This literature is a reference guide to Vitis for medical personals. It is intended to be solely educational and informational. It is not intended to substitute for any treatment prescribed by a physician.
