Teaching Practicum and Observation	38
Answer Key	40

The New Teacher is a series of short training courses for Myanmar teachers. Each module looks at a different aspect of teaching and takes trainees step-by-step through the learning process. Modules can be taught one after the other or individually, depending on the needs of the trainee or the requirements of the training course. Each module is clear, simple and reflects the approach of other Mote Oo Education books.

Module One looks at how and why learners learn. It covers learning styles, intelligences, motivation and identity.

Series Features:

- **Ideas about Learning** give the trainee information about important academic research relevant to their learning.
- **Multimedia CD** with a collection of short videos and Powerpoint presentations, showing the main ideas of the course in action.
- **Teaching Practicum and Observation** to encourage learning after the course has ended.
- **Full Myanmar glossary** of important technical terms.
