

Chapter	Page
Introduction	01 » 03
(1) Inventory control	
Control level	04 » 07
Economic order quantity / Economic batch quantity	08 » 17
Different valuations of inventory	18 » 20
Stock record card	21 » 26
(2) Costing for overhead	
Allocation, Apportion, Reapportion	27 » 28
Reapportionment of reciprocal services	29 » 30
Absorption	31 » 34
(3) Job costing and batch costing	35 » 40
(4) Activity based costing	
Absorption costing	41 » 41
Activity based costing	42 » 50
(5) Process costing	
Without work in progress	51 » 54
Without opening work in progress	55 » 56
With opening work in progress	57 » 61
(6) Joint products and by product	
Apportion of joint cost	62 » 65
Further process decision	66 » 66
Production units are not equal sale units	67 » 73
(7) Standard costing	
Variance (absorption costing)	74 » 91
Mixing more than one type of material	92 » 95
Variance (marginal costing)	96 » 96
Planning and operational variance	097 » 103
Given variance	104 » 109
Standard process costing	110 » 112
(8) Cost accounting	
Integrated system	113 » 117
Non integrated system / Inter locking	118 » 121
Profit reconciliation	122 » 124
Standard cost accounting	125 » 131
