

Preface

This compilation, "Spoken Myanmar" is wholly dedicated to the foreigners who are coming to Myanmar for various purposes.

To be frank, this compilation has been prepared with great efforts by the compiler for the convenience and easiness in speaking Myanmar language.

Consequently, Myanmar sounds (Consonants and Vowels) are clearly described with examples, so that the user of this book will find it easy to pronounce Myanmar sounds without trouble.

To sum up, the compiler wishes all the users of this book to enjoy speaking English and Myanmar languages during their stay in Myanmar.

Wishing every success from the start.

U Tint Winn Naing
