

CHAPTER 1

3D WIREFRAME MODELING

- | | | |
|-----|--------------------------------|----|
| 1.1 | Create a 3D Wireframe Model | 10 |
| 1.2 | About Modeling 3D Objects | 15 |
| 1.3 | About Shading and Highlighting | 19 |

CHAPTER 2

3D SURFACE MODELING

- | | | |
|-----|----------------------------------|----|
| 2.1 | Create 3D Surfaces By Extrusion | 23 |
| 2.2 | Create 3D Surfaces By Lofting | 34 |
| 2.3 | Create 3D Surfaces By Revolving | 41 |
| 2.4 | Create 3D Surfaces By Sweeping | 44 |
| 2.5 | Create 3D Surfaces By Blending | 53 |
| 2.6 | Create 3D Surfaces By Offsetting | 61 |

CHAPTER 3

3D MESH MODELING

- | | | |
|-----|---------------------------------|----|
| 3.1 | Create 3D Mesh By Primitives | 67 |
| 3.2 | 3D Mesh From Other Objects | 78 |
| 3.3 | Create 3D Mesh By Conversion | 84 |
| 3.4 | Changing Mesh Smoothness Levels | 87 |

CHAPTER 4

3D SOLID MODELING

- | | | |
|-----|-------------------------------|-----|
| 4.1 | Create Solids Based on Others | 92 |
| 4.2 | Creating 3D Composite Solids | 99 |
| 4.3 | Editing 3D Solid Objects | 103 |

CHAPTER 5

3D DYNAMIC VIEWS

- | | | |
|-----|--------------------------------|-----|
| 5.1 | Create a 3D Model For Viewing | 121 |
| 5.2 | Dynamic Viewing in 3D | 129 |
| 5.3 | Use the CAmera Command | 131 |
| 5.4 | Use the DiStance Command | 133 |
| 5.5 | Using the POints Command | 134 |
| 5.6 | Create Sections from 3D Models | 136 |

CHAPTER 6

CREATE DIMENSIONS

- | | | |
|-----|--------------------------------|-----|
| 6.1 | Basic Concepts of Dimensioning | 140 |
| 6.2 | Create Linear Dimensions | 144 |
| 6.3 | Dimensioning on Curved Objects | 152 |
| 6.4 | Angular Dimensioning | 154 |
| 6.5 | Use Quick Leader | 156 |
| 6.6 | Create Ordinate Dimensions | 157 |

CHAPTER 7

RENDERING 3D MODELS

- | | | |
|-----|----------------------------------|-----|
| 7.1 | Basic of Rendering | 161 |
| 7.2 | Apply Materials to Objects | 172 |
| 7.3 | Atatching Solid Glass to Objects | 176 |
