|---|-----|------------|
| <b>Part (I)</b>   |     |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၁)</b>                   |     |            |
| 1.1. If You Need To Select AHU Design, How You Choose CAV Or VAV System?    | 2   |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂)</b>                   |     |            |
| 2.1. How To Intall Drain Pipe's U-trap Height From AHU and FCU?             | 4   |            |
| 2.2. What Are The Purposes For Installation Drain Pipe?                     | 4   |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၃)</b>                   |     |            |
| 3.1. How To Classify AHU By Configuration?                                  | 8   |            |
| 3.2. What Is CAV System?  | 12  |            |
| 3.3. What Are The Features Of CAV System?                                   | 12  |            |
| 3.4. How To Operate The CAV System?   | 13  |            |
| 3.5. How CAV System Operates When Return Air Is Cold?                       | 14  |            |
| 3.6. How CAV System Operates When Return Air Is Hot?                        | 14  |            |
| 3.7. What Is VAV System?  | 15  |            |
| 3.8. What Are The Features Of VAV System?                                   | 16  |            |
| 3.9. What Are The VAV Components?   | 17  |            |
| 3.10. What Are The Functions Of VAV Terminal Unit?                          | 17  |            |
| 3.11. What Are The Functions Of Direct Digital Controller?                  | 18  |            |
| 3.12. What Are The Functions Of Thermostat?                                 | 18  |            |
| 3.13. What Are The Functions Of Pressure Sensor?                            | 18  |            |
| 3.14. What Are The Functions Of Variable Speed Drive?                       | 19  |            |
| 3.15. What Is The Operation Of VAV System?                                  | 19  |            |
| 3.16. How VAV System Operates When Return Air Is Cold?                      | 19  |            |
| 3.17. How VAV system operates when return air is hot?                       | 20  |            |
| 3.18. What are the Advantages and Disadvantages of VAV System?              | 20  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၄)</b>                   |     |            |
| 4.1. How To Design Water Cooled Package Systems?                            | 23  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၅)</b>                   |     |            |
| 5.1. What Is Displacement Ventilation System?                               | 25  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၆)</b>                   |     |            |
| 6.1. Why Is It Important To Test Indoor Air Quality? & How To Test IAQ?     | 28  |            |
| 6.2. What Is Indoor Air Quality?  | 28  |            |
| 6.3. What Are The IAQ Standards?  | 29  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၇)</b>                   |     |            |
| 7.1. How To Calculate Air Flow Rate Optimization?                           | 32  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၈)</b>                   |     |            |
| 8.1. How To Make Chilled Water System Optimization?                         | 36  |            |
| 8.2. How Many Types Of Chillers?  | 36  |            |
| 8.3. What Is Chiller Efficiency And Life Cycle Costing?                     | 37  |            |
| 8.4. How To Describe Green Mark Criteria For Chiller Plant Efficiency?      | 37  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၉)</b>                   |     |            |
| 9.1. What Is The Difference Between HEPA Filters & ULPA Filters?            | 40  |            |
| 9.2. Where & When HEPA Filters Used In Cleanroom Classes?                   | 41  |            |
| 9.3. Where & When ULPA Filters Used In Cleanroom Classes?                   | 42  |            |
| 9.4. How To Select Filters By Cleanroom Applications & Class?               | 42  |            |
| 9.5. How To Consider Cost And Airflow In Cleanroom?                         | 43  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၁၀)</b>                  |     |            |
| 10.1. What Is Venturi Valve?  | 44  |            |
| 10.2. What Is The Venturi Valve's Working Principle?                        | 44  |            |
| 10.3. What Are The Features Of Venturi Valve?                               | 44  |            |
| 10.4. Why Does Use Venturi Valve In Cleanroom?                              | 45  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၁၁)</b>                  |     |            |
| 11.1. What Is The Difference Between VAV Box & VAV Thermal Diffuser?        | 48  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၀)</b>                  |     |            |
| 20.1. How To Calculate Air Flow Rate For Lift Motor Room?                   | 79  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၁)</b>                  |     |            |
| 21.1. Why Should UV Light Use In AHUs?                                      | 81  |            |
| 21.2. What Is The Usage Of UV Lights In AHUs?                               | 82  |            |
| 21.3. Where Are UV Lights Used In?  | 82  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၂)</b>                  |     |            |
| 22.1. What Is Smoke Purging System?   | 84  |            |
| 22.2. What Is Engineering Smoke Control System?                             | 86  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၃)</b>                  |     |            |
| 23.1. How To Calculate Louvers Size In ACMV System?                         | 89  |            |
| 23.2. What Are The Functions Of Louvres In ACMV System?                     | 90  |            |
| 23.3. What Is The Usage Of Louvres In ACMV Systems?                         | 90  |            |
| 23.4. How To Install Louvers?   | 91  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၄)</b>                  |     |            |
| 24.1. Why Need To Install Air Vent In Chilled Water & Condenser Water Pipe? | 94  |            |
| 24.2. Why Air Vents Are Needed?   | 94  |            |
| 24.3. Where Should Install Air Vent?  | 95  |            |
| 24.4. What Is Condenser Water Piping System?                                | 95  |            |
| 24.5. How many Types of Air Vents Used in the System?                       | 96  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၅)</b>                  |     |            |
| 25.1. How To Design Existing AHU To Increase Air Flow?                      | 98  |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၆)</b>                  |     |            |
| 26.1. Should Insulation Wrap In Fresh Air Duct (FAD)?                       | 101 |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၇)</b>                  |     |            |
| 27.1. Should Volume Control Damper Install In Every Grilles?                | 103 |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၈)</b>                  |     |            |
| 28.1. Why We Test And Balance HVAC Air And Water?                           | 106 |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၂၉)</b>                  |     |            |
| 29.1. How To Cool Down Temperature For Operation Theatre?                   | 111 |            |
| <b>ACMV Technical Questions &amp; Answers အပိုင်း (၃၀)</b>                  |     |            |
| 30.1. What Is CSSD?   | 113 |            |
| 30.2. What Are Key Functions Of A CSSD Room In A Clean Room?                | 113 |            |
| 30.3. How To Design Considerations For CSSD Zoning In Cleanroom?            | 113 |            |
| 30.4. How To Calculate Of Airflow Rate For CSSD Room?                       | 114 |            |
| 30.5. How To Select AHU's Filtration System For CSSD?                       | 115 |            |
| 30.6. How To Consider Pressurization Strategy For CSSD?                     | 116 |            |
| 30.7. How To Select Diffuser & Exhaust Layout In CSSD?                      | 116 |            |
| 30.8. How To Design Air Flow Pattern For CSSD Room?                         | 117 |            |
| <b>PART (II)</b>  |     |            |
| <b>Interview Questions &amp; Answers</b>                                    |     | 120 to 137 |
